For the 2019-2020 season, the MTC has adopted the Canadian Provincial and Elite Pathway programs for competition, as administered by Gymnastics Canada (GymCan). **The MTC has also developed the NB Level 1 category (NB 1) to provide an additional category that meets the skill development and competitive needs of boys in the province.** In New Brunswick, the NB 1 category serves as a developmental pre-competitive program while the Provincial Pathway serves as the primary competitive stream. The emphasis of the pre-competitive program is on participation, enjoyment, and preparation for competition. The Elite pathway can prepare young athletes to progress into the higher levels of the Provincial Pathway or into the Junior and Senior High Performance categories. Any club hosting a meet must apply to the NBGA for sanction and must comply with the directives and regulations outlined below.

the top 4 scores on each event. In National Open, event specialists will be considered in determining the highest scoring team.

5. Any athlete who meets the criteria for a petition may be considered in the wildcard selection process if there remains space on the team after all other eligible athletes have been considered via the process outlined above.

This will be the 'core team'. The core team score will be established by averaging the athletes' two highest Canadian Pathway competition scores + Provincials scores on each event.
 4. The remaining spots on the team will be open for wildcard selection. The average scores of the remaining eligible athletes will be determined by averaging their two highest Canadian Pathway competition scores + Provincials scores on each event.

 6. Any athlete who meets the criteria for a petition may be considered in the wildcard selection process if there remains space on the team after all other eligible athletes have been considered via the process outlined above.

7. Up to two athletes in each age category in Level 3-5 may be named to compete as independents. Their scores will not count toward the team total at Eastern Championships. The individuals will be named based on their ranking in creating the highest scoring team as per the above process.
 8. If prior to departure for Eastern Championships an athlete has to withdraw, another athlete may be selected to replace him, provided there remains a reasonable amount of time for preparation. A decision as to who will be selected as the replacement will be made following the same selection process outlined above.

- ii. The 3 athletes who make up the core team (as defined in section V-i-vii-2) will each compete on all six apparatus. The remaining three spots on each apparatus will be determined by considering the average scores of the remaining athletes' two highest Canadian Pathway competition scores + Provincials scores with the goal of creating the highest possible team score.
- iii. An athlete selected to Team NB as an event specialist should be given priority on that/those event(s), provided he has demonstrated potential to contribute to the team score.
- iv. The tentative line-up should be announced within two weeks of Provincial Championships to allow adequate mental and physical preparation. Athletes should continue to prepare for all events in the case of injury or other necessary changes to the line-up.
- v. The final line-up will be determined at Canadian Championships based on demonstrated readiness during training sessions. All team members must be included in the line-up on at least one event unless injury or exceptional circumstances force withdrawal.

k. COACH QUALIFICATION REQUIREMENTS FOR NBGA COMPETITIONS

- i. Any coach on the competition floor during NBGA sanctioned competitions must possess the appropriate certification relative to the skill level of the athletes they are coaching, and hold valid First Aid, CPR, and Respect in Sport certification
- ii. For more details, see the NBGA Coaching Policies and Guidelines.

l. SELECTION OF COACHES FOR TEAM NB

- i. The NBGA will make every effort to fund two coaches per team (one team coach and one assistant coach) to travel to each competition, provided it is financially viable.
- ii. Coaches for each team will be named according to a point system determined by the order in which the athletes are named to the team (e.g., for a team of six, 6 points for the first named athlete, 5 points for the next named athlete, etc.).
- iii. The club with the most points will select the team coach from among its coaching staff. The club with the next most points will select the assistant coach from among its coaching staff. In the case of a tie, the club with the most athletes on the team will select the coach; in the case of a further tie,

the club of the athlete with the highest total D-Score across six events will select the coach.

- iv. If a club has earned a team/assistant coach position but does not wish to name a coach from among its coaching staff, the club with the next most points will select the team/assistant coach. If no other club has earned points, the MTC may appoint a team/assistant coach by a majority vote.
- v. If a team consists of athletes from one club only, that club may name both a team coach and an assistant coach, provided there are at least 4 athletes on the team and that it is financially viable to fund a second coach.
- vi. Up to two wildcard coach positions may be named for Atlantic Championships and one wildcard coach position may be named for Eastern Championships to serve as a developmental opportunity.
- vii. Club-selected coaches must be approved by the MTC, ensuring that any coach named to Team NB is a member in good standing with the NBGA and has met the coaching certification standards below.
